POLICY JUSTIFICATION

Philippines—Scout, Assault, and Light Support Boats with Armaments and Accessories

The Government of the Philippines has requested to buy one hundred fifty-six (156) M240B 7.62x51mm machine guns. Also included are thirty-six (36) 9M Scout Boats (SB); thirty-six (36) 10M Assault Boats (AB); eighteen (18) 16M Light Support Boats (LSB); thirty-six (36) units of Forward Looking Infrared (FLIR) 280HD; twenty-four (24) M2A1 .50 caliber machine guns; thirty-six (36) M134D-M, 7.62x51mm, 6-barrel rotary Gatling guns; three hundred ninety-nine (399) NFS-NVG/IR Lasers (AN/PVS-14 and AN/PEQ-15); one hundred two (102) Thermal Imager Scope (handheld); two hundred ten (210) Heavy Thermal Weapon Sights (AN/PAS-13); ninety (90) Harris Falcon III RF-7850M radios; two hundred seventy (270) Harris Falcon III RF-7850S radios; boat spare parts; spare engines and engine components; safety and rescue equipment; training; contractor engineering technical services; engineering technical assistance; transportation cost services, and other related elements of logistics and program support. The estimated cost is \$126 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a strategic partner that continues to be an important force for political stability, peace, and economic progress in South-East Asia.

The proposed sale will improve the Philippines' capability to meet current and future threats by force multiplying the Army's present ability to operate and control both inland and coastal waterways of southern Philippines. The Philippines will have no difficulty absorbing this equipment and support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor for the Scout and Assault Boats will be Willard Marine Inc., Anaheim, CA. The principal contractor for the Light Support Boat will be determined through an open competition contract. There are no known offset agreements proposed in connection with this potential sale. Any offset agreement required by Philippines will be defined in negotiations between the purchaser and the contractor(s).

Implementation of this proposed sale will require the assignment of one (1) additional U.S. contractor representative to the Republic of the Philippines for a duration of five

(5) years to provide maintenance and logistical support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 20-38

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. Included are:

a. The M240B 7.62x51mm machine gun is a general purpose, gas-operated, medium machine gun fired from a mount. The M240B machine gun provides protection and is used extensively by infantry, most often in rifle companies, as well as on ground vehicles, watercraft and aircraft.

b. The 9M Scout Boat is an agile vessel. The 9M Scout Boat provides reconnaissance capabilities.

c. The 10M Assault Boat is a high speed patrol vessel. The 10M Assault Boat provides search and seizure capabilities.

d. The 16M Light Support Boat is a light-weight unit support vessel. The 16M Light Support Boat provides extended range for the mission.

e. The Forward Looking Infrared (FLIR) 280HD is an imaging system. The FLIR 280HD is designed to identify and track threats in the day and night.

f. The M2A1 .50 caliber machine gun is an automatic, air-cooled machine gun either mounted or crew transported (over short distances). The M2A1 .50 caliber machine gun provides defensive and offensive capabilities and can be used as an anti-personnel and anti-aircraft weapon.

g. The M134D-M, 7.62x51mm, 6-barrel rotary Gatling gun, is a machine gun. The M134D-M, 7.62x51mm, 6-barrel rotary Gatling guns provides defensive and offensive capabilities.

h. The Night Fighting System-Night Vision Goggle (NFS-NVG)/Infrared Lasers (AN/PVS-14 and AN/PEQ-15). The NFS/NVG (AN/PVS-14) is a multi-functional night vision monocular. The NFS/NVG provides night vision capabilities and can be used as a handheld pocket scope, helmet-mounted monocular, or a weapon sight when mounted in tandem with an infrared laser aimer. The Advanced Target Pointer/Illuminator/Aiming Laser (AN/PEQ-15) is an infrared laser aimer. The Advanced Target Pointer/Illuminator/Aiming Laser (AN/PEQ-15) provides direct-fire aiming and illumination for nighttime use.

i. The Thermal Imager Scope is a device which creates an image by the target's emitted heat signature and its contrast to its immediate surroundings. The Thermal Imager Scope provides a sharper capability for precision targeting in the absence of illumination.

j. The Heavy Thermal Weapon Sights (AN/PAS-13) is a portable infrared sensor for use on rifles, surveillance missions, and shoulder-launched missiles. The Thermal Weapon Sight provides a capability to acquire targets at long range, night, during the day in adverse weather conditions and through smoke and dust.

k. The Harris Falcon III RF-7850M Radio is a multiband networking vehicular radio. The Harris Falcon III RF-7850M Radio provides high-speed, long-range tactical communications and is engineered for space-constrained platforms.

l. The Harris Falcon III RF-7850S Radio is an advanced wideband, secure personal radio. The Harris Falcon III RF-7850S Radio provides personal, secure and full communications capabilities (for both wideband and narrowband operation) and meets specific

needs of soldier-level communications with multiple talk groups, ad-hoc mesh networking, and multihop forwarding.

2. The highest level of classification of defense articles, components, and services included in this potential sale is UNCLASSIFIED.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Republic of the Philippines can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Republic of the Philippines.

ARMS SALES NOTIFICATION

Mr. RISCH. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter references a classified annex, then such annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

POLICY JUSTIFICATION

Taipei Economic and Cultural Representative Office in the United States (TECRO)—Repair and Recertification of Patriot Advanced Capability-3 Missiles

TECRO has requested to buy Recertification of Patriot Advanced Capability-3 (PAC-3) missiles, including the replacement of expiring Limited Life Components (LLCs) and certification testing in order to support an operational life of thirty years; Test and repair of PAC-3 missiles, including Stockpile Reliability Testing (SRT) and Field Returns; Repair and Return (R&R) of classified and unclassified PAC-3 missile items and Ground Support Equipment (GSE) component level parts; replenishment of classified and unclassified missile spares and GSE spares, as well as a seeker spares pool to improve the turnaround time of the repair and recertification efforts; air transportation services for missile processing; U.S. Government and contractor technical and logistics support; and other related elements of logistics support. The total estimated cost is \$620 million.

This proposed sale is consistent with U.S. law and policy as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

This proposed sale will help sustain the recipient's missile density and ensure readiness for air operations. The recipient will use this capability as a deterrent to regional threats and to strengthen homeland defense. The recipient will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin, Camden, AZ. There are no known

offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the prospective purchasing country.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 20-24

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The Patriot Air Defense System contains classified SECRET components and critical/sensitive technology. The Patriot Advanced Capability-3 (PAC-3) Missile Four Pack is classified CONFIDENTIAL. With the incorporation of the PAC-3 missile, the Patriot system will continue to hold a significant technological lead over other surface-to-air missile systems in the world.

2. The PAC-3 Missile sensitive/critical technology is in the area of design and production know-how and primarily inherent in the design, development, and/or manufacturing data related to certain components. Information on system performance capabilities and effectiveness, select software documentation, and test data are classified up to SECRET.

3. If a technologically advanced adversary were to obtain knowledge of hardware and software elements, the information could be used to develop countermeasures or equivalent systems, which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the recipient can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the recipient.
